LANGUAGES

Italian: native
English: upper-intermediate (B2)
(IELTS certification, 6.5)

TECHNICAL SKILLS

Microsoft Excel, PowerPoint, Word,
ArcGIS, QGIS, ENVI, GeoDa
MATLAB · CAD · LaTeX
ESA SNAP · MetaShape

PROFILE

Environmental Engineering graduate from the University of Palermo, currently enrolled in the Master's Degree in Industrial Environmental Sustainability at Politecnico di Torino, following a twin-track path also aimed at specialising in Chemical Engineering. Skilled in environmental analysis, industrial process sustainability and environmental impact assessment, with hands-on experience using GIS systems, CAD software, Excel, MATLAB and LaTeX. Seeking professional and internship opportunities in the chemical-industrial, energy, environmental, environmental consulting and HSE sectors.

WORK EXPERIENCE

Administrative Assistant – R&T

- Managed and archived accounting documents, ensuring data traceability and security.
- Coordinated internal procedures and prepared logistics/administrative documentation.
- Liaised with companies, public bodies and credit institutions; handled telephone customer support.
- Streamlined complex procedures and provided organisational support to improve office efficiency.

Technical Assistant – SE.I.CO. S.r.l.

- Drafted technical reports and floor plans for building renovation projects; 3D modelling of infrastructure works.
- Made advanced use of CAD and GIS software for technical design and land-use planning.
- Supported the preparation of technical opinions, building permit applications and tender documentation.
- Drafted Site Safety Operational Plans (POS) and managed technical/organisational aspects of the construction site.

EDUCATION

Master's Degree in Industrial Environmental Sustainability

Politecnico di Torino

Twin-track path also aimed at achieving specialisation in Chemical Engineering.

Bachelor's Degree in Environmental Engineering — Grade: 105/110

University of Palermo — 13/03/2025

Scientific High School Diploma — Grade: 88/100

G. D'Alessandro Institute — 2021

SPECIALIST TECHNICAL SKILLS

- **Microsoft Office Suite:** advanced proficiency in Microsoft Excel, PowerPoint, and Word for data analysis, technical reporting, presentations, and document preparation.
- **Numerical Analysis & Design:** modelling with MATLAB, CAD software, and open-source applications.
- **Environmental Monitoring & Analysis:** pollution prevention, data analysis, and water resource management.
- **GIS & Spatial Analysis:** ArcGIS, QGIS, ENVI, GeoDa — geostatistical analysis, spatial data processing, and geospatial modelling.
- **Geotechnics & Hydrology:** soil characterisation, geotechnical analysis, and hydrological modelling.
- **Remote Sensing & Photogrammetry:** satellite image processing (ESA SNAP) and 3D photogrammetric modelling (Agisoft Metashape).
- **AI Tools:** advanced use of generative AI for technical documentation, data analysis, coding support, and research.
